

TOOWOOMBA

East

A QUEENSLAND STATE SCHOOL

"Achieve with Pride"

Together Encouraging Students Success

23/11/12

Dean McCarthy and his team from DMC performed all the building and construction work at Toowoomba East State School funded as part of the Federal Governments B.E.R. Program.

They were on site here for 12 months and delivered a Hall, covered Sports Facility, a Library, a First Aid and Office building and Playground facilities.

We can't speak highly enough of the level of service, the productive relationship and the professionalism that we enjoyed whilst working closely with Dean and his staff over such a long period.

All of our requirements were accommodated, and the quality of the finished product was outstanding.

Dean McCarthy and DMC are very highly regarded within this school's community.

Graeme Lacey
Principal
